## Notes

- Entries after 1910 have been hidden for data privacy reasons.
- If a person's name is underlined and in a different colour, the link will take you to another family tree which contains the same person.
- If a person's name is underlined and in the same colour, the link will take you to another part of this family tree because the person appears more than once. This can happen, for example, if a person marries more than twice.
- If the dates for the person's life are underlined, the link will take you to the relevant *Details of family members in Html format* page.

- It is only possible to print trees in the portrait style (either as an html page or as a PDF document).
- This web-page has been generated by program from my Microsoft Access 2000 family history database.
